

Math Worksheet: Absolute Value(1)

1. Rewrite the following expressions without absolute value.

$$|-2\sqrt{3} + 5/2| =$$

2. Solve the following inequality.

$$|-6 + 4x| \leq 7$$

3. Simplify the expression using absolute value.

$$\sqrt{x^2 + 4 - 4x}$$

4. Solve the equation

$$\sqrt{(4 - x)^2} = 5 - 2x$$
